

Elevating Community Health

- At [Community Health Solutions](#) (CHS) we help people build strong nonprofits and healthier communities.
- We work across sectors with organizations in health, education, human services, public safety, and community development.
- We focus on supporting nonprofits and the foundations, associations, and public agencies that support their work.
- Our signature solution is the action learning collaborative, a creative way to bring people together for learning and action.

Strong Nonprofits

Strong nonprofits are the cornerstones of healthy communities. CHS can help you:

- Assess organizational readiness
- Design organizational strategies
- Support organizational learning
- Optimize strategic execution
- Evaluate organizational performance and community impact

Healthier Communities

Healthy communities are the result of community partners working together for collective impact. CHS can help you:

- Assess community needs
- Design community strategies
- Support community collaboration
- Optimize community implementation
- Evaluate community impact

Systems Change

Systems change strategies are focused on improving system-level policies and processes that affect access to services and supports for people in need. CHS can help you:

- Engage key stakeholders
- Assess the current system
- Design system improvements
- Develop system capacity
- Support implementation
- Evaluate the impact of systems change efforts

Collaborative Learning

Collaborative learning brings people together for focused learning and action. CHS can help you:

- Engage participants in collaborative learning
- Assess learning needs
- Design learning strategies
- Develop learning resources
- Execute the collaborative learning effort
- Evaluate the impact of collaborative learning.
